Subject: Waterway Suitability Assessment Recommendations for Orbit NGL-Energy Transfer Partners

Dear Captain Twomey:

The membership of the Southeast Texas Waterways Advisory Council (SETWAC) has no objections to your issuance of a Letter of Recommendation for the Orbit NGL Ethane Export Project (Sunoco/Energy Transfer Partners) to establish a Liquefied Hazardous Gas (LHG) export operation at the Sunoco/Energy Transfer Terminal in Nederland, TX.

The SETWAC Navigation Sub-Committee was convened to assess the safety and security of the Orbit NGL plan. The Sub-Committee reviewed the Waterway Suitability Assessment (WSA) provided by Orbit NGL, attended a meeting with representatives of this project and was provided the opportunity to ask questions. At the January 23, 2020 SETWAC meeting the Sub-Committee reported to the Full Committee no concerns or recommendations related to this project. The Navigation Sub-Committee remains available for consultation should you have any additional questions concerning the proposed project.

Sincerely,

R. S. Ogrydziak
Chairman
Southeast Texas Waterways Advisory Council
