

Full Committee Meeting
23 October 2025

Captain of the Port Remarks

**AIR GAP AND
VISIBILITY
SENSOR STATUS
REPORT**

**SABINE
PILOTS**

FUNDING BY SNND

The SNND Board of Commissioners approved a “not to exceed” budget of \$613,375 to fund the initial installation of these improvements at their board meeting on August 8, 2025. This amount does not include the cost of maintaining these improvements

TENTATIVE TIMELINE FOR INSTALLATIONS

November 2025:

- Execution of project contract with SNND
- Engage an Engineer on the air gap system design for TXDOT review and approval
- Engage with any contractors needed for visibility installations (i.e. concrete slab)

December – February 2026:

- Submit report to TXDOT for air gap approvals
- Procurement of system components
- Fabrication of mounts, brackets, etc..
- Receive system components
- Provide NOAA PORTS with preliminary information on each system
- Set up and testing of system components

March-April 2026: Begin installations

AIR GAP - MLK GULFGATE

Reconnaissance Date : June 2025

Personnel: CBI, TXDOT, and NOAA personnel were present

Findings:

- Dual Air Gap to be installed on the westbound side of the bridge.
- Combination solar and AC power
- TxDOT exploring adding a breaker for the system
- The mount will be designed to avoid intrusion to the bridge structure. The plan is to install each air gap sensor within one of the large holes in the steel bridge deck (Figure 1 and 2). All components—including the data collection platform (DCP), enclosure, solar panel, battery, and regulator—will be mounted together. The mount will span multiple holes and be secured using long threaded rods with stainless steel C-channel (or similar material) on both the top and bottom surfaces, forming a compression clamp (Figure 3). A support arm may also be added, extending toward the concrete side and resting over it like a saddle to enhance horizontal stability.

In Progress/Next steps:

- Determine AC power with TXDOT
- Prepare drawings for engineer
- Once contract is executed:
 - Execute a vendor contract with a Professional Engineer (P.E.) to sign off on design
 - Provide TXDOT with documentation for approval
 - Engage with an electrician to provide a breaker for AC power

OLD PILOT STATION – TEXAS JETTIES

Reconnaissance Date: September 10, 2025 – 11:00 AM

Location: 8010 S. 1st Ave, Sabine Pass, TX

Contact: Lance DeJohn (lanced@portcity-sabine.com)

Summary of Findings:

- Equipment can be mounted to existing handrail
- Site determined to be an excellent for installation

In Progress/Next steps:

- Power has been confirmed at the location. We are in discussion with Entergy and Lance DeJohn on power options.
- Two (2) options:
 1. Utilize existing power at the facility via the account holder who will absorb the cost (standard procedure)
 2. Setup a separate account with the power company to provide power to the system. Account owner to be determined.
- Proceed with installation of system

ENERGY TRANSFER NEDERLAND

Reconnaissance Date: September 9, 2025 – 10:00 AM

Location: 2300 N. Twin City Hwy., Nederland, TX

Personnel: Christopher Deslatte (christopher.deslatte@energytransfer.com)

Summary of Findings:

- Area with existing power identified; step-down transformer will be required
- Requires a concrete slab/foundation for the visibility system (cost included in the project budget).
- System will be installed on a Rohn tower as seen in Figure 6

In Progress/Next steps:

- Identify preferred contractor for the concrete and electrical work
- Electrician to provide power for the system
- Contractor to pour concrete pad
- Proceed with installation of system

Example Station

PORT OF BEAUMONT

Reconnaissance Date: September 10, 2025 – 9:00 AM

Location: 1225 Main Street, Beaumont, TX

Contacts:

- Randal Ogrydziak (rso@pobtx.com)
- Chris Fischer (dcf@pobtx.com)
- Sade Chick (sc@pobtx.com)
- Brandon Bergeron bmb@pobtx.com

Summary of Findings:

- A light pole was identified to be available for the installation of the equipment and sensors
- POB confirmed there is 120v available and there is room in the breaker box to add an additional breaker

In Progress/Next steps:

- Install an additional breaker for power
- Proceed with installation of system

Light Pole Identified for the Installation

TEXACO ISLAND / VALERO PLEASURE ISLAND TERMINAL

Reconnaissance Date: September 10, 2025 – 1:00 PM

Location: 2500 Martin Luther King Dr., Port Arthur,
TX

Contacts:

- Josh Ford (joshua.ford@valero.com, 409-313-3790)
- Sean Merchant (sean.merchant@valero.com)
- Jody Lambright (jody.lambright@valero.com)

Summary of Findings:

- Existing concrete slab suitable for installation identified.
- AC power available.
- Class 1, Div 2 enclosure may be necessary.
- May require a formal agreement authorizing TAMUCC to perform on-site work.
- System will be installed on a Rohn tower as seen in Figure 6

In Progress/Next steps

- Determine if a formal agreement will be required between TAMUCC and Valero
- Electrician to connect power to the station
- Install system

NECHES RIVER INTERSECTION

Reconnaissance Date: September 9, 2025 – 4:00 PM

Location: 9000 Yacht Club Rd., Port Arthur, TX

Contact: Chris Bean (clb@beantexas.com)

Summary of Findings:

- Discussion centered on potential site lease agreement.
- Moran Shipping identified as preferred location; Turn Services and Total (near Rainbow Bridge) as alternatives.
- AC power is preferred.
- Follow-up email sent, awaiting response.

Next steps:

- Determine location

Death of GUDE on *Seakay Sky*

Died at sea on Thursday,
September 25, 2025

Ship docked at Port of Port
Arthur

Visited ship on Monday
September 29, 2025

Did Prayers for the Dead &
Blessed Vessel

Body was lifted off ship &
taken for autopsy

Cause of death not known
at this time

DSV Vinnice

Contacted on August 21st:

- At Port of Port Arthur

- Crew had not been paid since June

- Shortage of vitals onboard

- Crewmembers working with expired contracts

- USCG hold on the vessel

Presently having main engine replaced at Gulf Copper.

The Port Arthur Seafarers' Center & Stella Maris have:

- Worked with USCG, CBP, & ITF

- Celebrated Mass for the Crew

- Have made numerous visits to vessel

- Assisted with prescriptions for one crewmember

- Working on repatriating the crewmembers

- Thanks to Hydra Offshore who provided a Pizza Party for Crew on Monday October 20th.

USCG ANT Sabine ATON Report

New Business

Jeferson County Vessel Turn-In Program

An Opportunity to Voluntarily Remove Inoperable Vessels

Jeferson County is partnering with the Texas General Land Office and the Texas Parks and Wildlife Dept. to offer Jeferson County residents the opportunity to dispose of inoperable and derelict vessels through the "Vessel Turn-In Program."

Designed to provide owners with a voluntary, free method of boat disposal, the General Land Office and Texas Parks and Wildlife Dept. will verify ownership and qualification for disposal. Verification of ownership and a Release of Interest and Ownership form must be completed on-site. The title must be free of any loan balances, liens or taxes. Jeferson County will assist with landfill disposal and the General Land Office will remove oil, fuel and batteries on board the vessel. **The boat must be clear of trash and debris.**

Jeferson County residents are welcome to relinquish vessels up to 26 feet long. Longer boats may be accepted on a case-by-case basis. Please call for more information if you have a longer vessel. **Boats must be brought to the drop-of location.**

November 5-7, 2025
10:00 AM - 6:00 PM

Drop-Of Locations:

5700 Jade Avenue
Port Arthur, TX 77640

Sponsors:

For more information, please contact the GLO between the hours of 8-5 Monday through Friday at
(409) 332-9325 or (409) 727-7481.
